Dear Mr. Peshek:

On October 27, 2008, you telephoned and informed me that you received our letter stating the deficiencies we found in the proposal that was prepared for the clean-up of the General Industries fire site. You told me that you had an interest in meeting with the appropriate Ohio EPA representatives at our office, and said that you were going to contact Mr. Jack Vasi, the Asbestos Hazard Abatement Specialist that prepared the proposal, and provide me with some dates that both of you would be available to meet.

On October 29, 2008, you telephoned to discuss questions you had regarding your existing clean-up proposal. I informed you that this would be one of the agenda items for our meeting, and we agreed that I would determine the soonest time period in which our Agency representatives would be available for this discussion. The dates available for all of us to meet at our office are November 17, 18, 19 or 20, 2008. Please speak with Mr. Vasi and, as soon as possible, inform Mr. Bob Princic at (330) 963-1230, or me at (330) 9631288, which of these dates you wish to meet with us. Please be prepared to discuss in more detail the deficiencies we addressed in our October 21, 2008 response letter regarding your original proposal.

We look forward to your timely response to this letter.

Sincerely,

Jim Veres
District Representative
Division of Air Pollution Control
